# Prasad Bangunde

Pune, Maharashtra, India | +91-9503775547 | prasadbangunde8@gmail.com | linkedin.com/in/prasad-bangunde | github.com/prasadbangunde

## Technical Summary

B.Tech Computer Science graduate building full-stack, AI-integrated applications using React, Next.js, Node.js, and AI APIs (Gemini AI, Vapi AI). Strong foundation in Data Structures & Algorithms and database design, with a track record of shipping complete features and high-engagement technical content (80M+ views).

## Education

**D Y Patil International University, Akurdi Pune** — Pune, India
*B.Tech in Computer Science and Engineering* — *2022 – 2026*

## Experience

**TechOctaNet Services Pvt. Ltd.** — May 2025 – Jul 2025
*Web Development Trainee and Intern*

- Built and shipped **8+ responsive UI components/pages** using React.js, HTML, and CSS for internal web applications, following Agile SDLC practices.
- Debugged and resolved **20+ frontend issues** during sprint cycles, collaborating with a team of **4-6 developers** using Git-based version control.
- Contributed to Agile sprint development and delivered **5+ production-ready features** following structured SDLC processes.

## Projects

**PrepSync AI – AI-Powered Voice Interview Coach** — GitHub

- Architected a full-stack AI mock-interview platform (**Next.js, TypeScript, PostgreSQL**) integrating **Gemini AI** for adaptive question generation and **Vapi AI** for real-time voice-based interviews.
- Implemented JWT-based authentication, interview history tracking, and a performance analytics dashboard.
- Developed and tested an ATS resume analysis engine evaluating resumes against **50+ job descriptions**, generating skill-gap insights and keyword optimization recommendations; deployed the platform on Render.

**ApniSec – Enterprise Issue Management System** — GitHub

- Developed a full-stack issue management platform (**Next.js, TypeScript, PostgreSQL**) with JWT-based authentication, HTTP-only cookies, role/ownership-based authorization, and bcrypt password hashing.
- Built RESTful API routes using Next.js App Router with a layered Controller–Service–Repository architecture, supporting issue creation, filtering, updating, deletion, and user profile management.
- Implemented **PostgreSQL** integration with **Prisma ORM**, Zod request validation, API rate limiting, centralized error handling, and Resend email notifications.

**Spendly – Personal Finance Dashboard** — GitHub

- Built a full-stack personal finance platform (**Python, FastAPI, SQLite**) with **6 modules** covering income, expense, budget, and savings-goal tracking.
- Designed a normalized relational schema and REST APIs supporting transaction CRUD operations and automated expense categorization across **10+ predefined categories**.
- Implemented JWT-secured authentication (python-jose) and a React (CRA) frontend with interactive dashboards for spend analysis and budget tracking; deployed on Vercel and tested by **10+ users**.

## Technical Skills

**Programming Languages**: C++, JavaScript, TypeScript, Python
**Frontend**: React.js, Next.js, Tailwind CSS, HTML, CSS
**Backend**: Node.js, Express.js, FastAPI, REST APIs, JWT Authentication
**Database**: SQL, PostgreSQL
**Tools**: Git, GitHub, Docker, GitHub Actions (CI/CD)

## Achievements & Certifications

- **Research Paper:** Authored "PrepSync AI: AI-Driven Interview Preparation and ATS Resume Evaluation"; submitted to IEEE PuneCon, ICCCAI, and ICDEAI 2026.
- **Augmented Reality (AR) Lens Creator – Snapchat / under25:** Designed viral AR filters reaching **80M+ views** and **350K+ user posts**.
- Big Data Computing (NPTEL, IIT Patna) – Oct 2025 | Generative AI Programming (NPTEL, IISc) – Aug 2025
